Computational Linguistics

Articles

An Efficient Natural Language Processing System Specially Designed for the Chinese Language
Lin-Shan Lee, Lee-Feng Chien, Long-Ji Lin, James Huang, K.-J. Chen 347

Systemic Classification and its Efficiency
Chris Brew 375

The Generative Lexicon
James Pustejovsky 409

Book Reviews

Computer Processing of Natural Language
Gilbert K. Krullee and Computers and Human Language
George W. Smith 442

Reviewed by Laura Proctor

Natural Language Generation in Artificial Intelligence and Computational Linguistics
Cécile Paris, William R. Swartout, and William C. Mann (editors) 448

Reviewed by Robert Dale

Current Issues in Parsing Technology
Masaru Tomita (editor) 453

Reviewed by Robert J. Kuhns

Linguistic Exploitation of Syntactic Databases: The Use of the Nijmegen Linguistic DataBase Program
Hans van Halteren and Theo van den Heuvel 457

Reviewed by Ian Lancashire

Editorial Board Members

1989–91:
Robert J. P. Ingria, BBN Systems & Technologies Corporation
Christopher S. Mellish, University of Edinburgh
Jeffry Pelletier, University of Alberta
Martina Pollack, SRI International
Patti Jo Price, SRI International
Masaru Tomita, Carnegie Mellon University
Mary McGee Wood, University of Manchester

1990–92:
Susan Warwick, University of Geneva
James Pustejovsky, Brandeis University
Stuart Shieber, Harvard University
Kenneth Church, AT&T Bell Laboratories
Robert Moore, SRI International
Julia Hirschberg, AT&T Bell Laboratories

1991–93:
Eduard Hovy, USC/Information Sciences Institute
Paul Jacobs, General Electric
Robert Kasper, Ohio State University
Diane Litman, Columbia University
Graeme Ritchie, University of Edinburgh
Richard Sproat, AT&T Bell Laboratories
Oliviero Stock, Institute for Scientific & Technological Research
