The 2018 Conference of the
North American Chapter of the
Association for Computational Linguistics:
Human Language Technologies

Tutorial Abstracts

June 1 2018
New Orleans, Louisiana
Introduction

Welcome to the Tutorials Session of NAACL HLT 2018 in New Orleans.

The NAACL-HLT tutorials session is an opportunity for conference attendees to participate in a tutorial on a timely topic of importance to the field, and to hear from experts on that topic. This year, the tutorials committee comprised of tutorials chairs from four conferences: ACL, COLING, EMNLP and NAACL-HLT. A total of 51 tutorial submissions were received, of which 6 were selected for presentation at NAACL-HLT.

We hope you find the six NAACL-HLT tutorials for this year to combine depth within each tutorial, and breadth across a set of topics that demonstrate the increasing relevance of NLP to a wide range of fields within and beyond computer science.

We would like to thank Marilyn Walker (NAACL general chair), Ying Lin (NAACL website chair), Stephanie Lukin and Margaret Mitchell (NAACL publications chairs), and Priscilla Rasmussen (local arrangement chair) for their help during the whole process. We also want to extend our sincere gratitude to the other conferences’ tutorial chairs who jointly helped with reviewing for all the tutorial submissions: Yoav Artzi, Jacob Eisenstein, Pascale Fung, Donia Scott, Marilyn Walker, Mausam, and Lu Wang.

Enjoy the tutorials!

NAACL 2018 Tutorial Co-chairs
Mohit Bansal
Rebecca Passonneau
NAACL HLT Organizers

**General Chair**
Marilyn Walker, University of California, Santa Cruz

# Table of Contents

*Modelling Natural Language, Programs, and their Intersection*
  Graham Neubig and Miltiadis Allamanis .......................................................... 1

*Deep Learning Approaches to Text Production*
  Claire Gardent and Shashi Narayan ................................................................. 4

*Scalable Construction and Reasoning of Massive Knowledge Bases*
  Xiang Ren, Nanyun Peng and William Yang Wang ............................................ 10

*The interplay between lexical resources and Natural Language Processing*
  Jose Camacho-Collados, Luis Espinosa Anke and Mohammad Taher Pilehvar ....... 17

*Socially Responsible NLP*
  Yulia Tsvetkov, Vinodkumar Prabhakaran and Rob Voigt ................................. 24

*Deep Learning for Conversational AI*
  Pei-Hao Su, Nikola Mrkšić, Iñigo Casanueva and Ivan Vulić ............................ 27
Conference Program

Friday, June 1, 2018

Morning Session

09:00–12:30  Modelling Natural Language, Programs, and their Intersection
Graham Neubig and Miltiadis Allamanis

09:00–12:30  Deep Learning Approaches to Text Production
Claire Gardent and Shashi Narayan

09:00–12:30  Scalable Construction and Reasoning of Massive Knowledge Bases
Xiang Ren, Nanyun Peng and William Yang Wang

12:30–15:00  Lunch

Afternoon Session

15:00–17:30  The interplay between lexical resources and Natural Language Processing
Jose Camacho-Collados, Luis Espinosa Anke and Mohammad Taher Pilehvar

15:00–17:30  Socially Responsible NLP
Yulia Tsvetkov, Vinodkumar Prabhakaran and Rob Voigt

15:00–17:30  Deep Learning for Conversational AI
Pei-Hao Su, Nikola Mrkšić, Iñigo Casanueva and Ivan Vulić
