# TABLE OF CONTENTS

**Reading Comprehension Programs in a Statistical-Language-Processing Class**  
Eugene Charniak, Yasemin Altun, Rodrigo de Salvo Braz,  
Benjamin Garrett, Margaret Kosmala, Tomer Moscovich,  
Lixin Pang, Changhee Pyo, Ye Sun, Wei Wy, Zhongfa Yang,  
Shawn Zeller, and Lisa Zorn .............................................................. 1

**Some Challenges of Developing Fully-Automated Systems for Taking Audio Comprehension Exams**  
David D. Palmer .................................................................................. 6

**A Rule-based Question Answering System for Reading Comprehension Tests**  
Ellen Riloff and Michael Thelen ........................................................ 13

**Answer Extraction Towards better Evaluations of NLP Systems**  
Rolf Schwitter, Diego Mollá, Rachel Fournier, and Michael Hess .................. 20

**A Question Answering System Developed as a Project in a Natural Language Processing Course**
